

Automotive Quality Engineer

OPPORTUNITY

Ainira Industries is currently seeking applicants for an experienced Automotive Quality Engineer with TS-16949 background to join our growing team in Bucharest, Romania.

JOB DESCRIPTION

This position is a classic automotive quality engineer position. It reports to the quality manager and has a healthy balance of duties from APQP (on through to launch) and beyond to customer contact and root cause analysis. The key ingredient is a deep knowledge of automotive quality and systems, along with a great personality in dealing with people/customers.

RESPONSIBILITIES

- Creating test plans based upon product requirements, developing functional test scripts, and the performance of testing where necessary
- Develop and document production test stations that produce valid data and demonstrate test requirement compliance in a clear, accurate, complete, and concise manner
- Knowledge of LabVIEW software (or similar software) to support functions and provide test control
- Create test summary reports and provide clear communication to management for all testing results
- Support engineering activities designing, and setting up electronic and test stations
- Representing the brand positively and professionally at all times
- Supporting events and promotional activities related to electric vehicles
- Perform other duties as assigned

SKILLS and ABILITIES

- A Bachelor's Degree from a four-year college or University in Mechanical, Electrical Engineering or Quality Assurance or equivalent experience.
- Must have Automotive TS-16949 experience
- CQA (Certified Quality Auditor) desirable
- Knowledge of ISO 26262 helpful
- Minimum of five years of professional experience in quality management in the automotive industry
- Knowledgeable with PPAP processes PFMEA control plans and gauge R&R
- Knowledgeable of IPC-A-610 and J-STD-001 for electronic assembly and solder
- A comprehensive knowledge of AS 9100 requirements
- Comprehensive understanding of Lean Six-Sigma
- Experience with PDM Enterprise

- Must be well organised, detail oriented and can manage multiple projects and priorities
- Must be able to accurately communicate ideas, always operate on a professional level, and provide solutions to challenging issues
- Willingness to continue to learn, grow, and take on stretch assignments
- Excellent computer and MS Office skills to report in a variety of formats

COMPENSATION

The Company offers a competitive compensation and benefits package.
